

Frequently Unasked Questions

in Neuroscience

neuroFUQ meeting ○ 21st to 23rd May 2018

Complejo San Juan
Sala Tabarca

www.complejosanjuan.com

Monday 21st

- 09:30 Alex Gomez-Marin's (IN Alicante) introduction
Today's excellent answers to mediocre questions
- 10:00 John Krakauer's (Johns Hopkins) topic of choice
conceptual seed: Explanation in neuroscience
- 11:30 break
- 12:00 Ehud Ahissar's (Weizmann) topic of choice
conceptual seed: Closed-loop perception
- 13:30 lunch
- 14:30 Gerald Loeb's (University of Southern California) topic of choice
conceptual seed: Good-enough control
- 16:00 break
- 16:30 Whole Group's topic of choice (purposefully unscheduled)

Tuesday 22nd

- 09:30 Recap of yesterday
Where are we now?
- 10:00 Asif Ghazanfar's (Princeton) topic of choice
conceptual seed: Morphological computation
- 11:30 break
- 12:00 Heather Bell's (UCSD) topic of choice
conceptual seed: Perceptual constancy via behavioural variability
- 13:30 lunch
- 14:30 Don Katz's (Brandeis) topic of choice
conceptual seed: Single-trial neuroscience
- 16:00 break
- 16:30 Whole Group's topic of choice (purposefully unscheduled)

Wednesday 23rd

- 09:30 Recap of the recap
Are we more lost? Is that a good sign?
- 10:00 Paul Katz's (University of Massachusetts Amherst) topic of choice
conceptual seed: Homology in neuro-ethology
- 11:30 break
- 12:00 Harald Atmanspacher's (ETH Zurich) topic of choice
conceptual seed: Complementarity in cognition
- 13:30 lunch
- 14:30 Whole Group's final debate
If the brain is the answer, what was the question?
- 16:00 break and goodbye

Organizer: Alex Gomez-Marin
Sponsored by the Severo Ochoa Excellence Programme
